

Year 4

This half term, we have been having lots of fun learning how to play the recorder in our music lessons. We've made great progress, and we're now able to read musical notes from a sheet of music! It's been exciting to see how much we've improved each week.

In science, we've been learning all about teeth! We've discovered the different types of teeth that children and adults have, and explored the important jobs each one does. In our latest lesson, we had fun using mirrors to look at our own teeth and identify the different types.
